

Community Observatory Docent Application

Do you have a passion and fascination for the night sky? Do you have a keen interest in learning about it and sharing your attraction with the general public? If so, the Cameron Park Rotary Observatory has exciting volunteer opportunities available for you. We are looking for enthusiastic individuals who can commit to a minimum of two nights per month working alongside other volunteer docents introducing the public to astronomy using state of the art equipment provided by the Observatory. While knowledge of Astronomy is very important, it is not the only criteria for becoming a docent. An interest and desire to work with the public is the primary requirement.

Name: _____

Address: _____

Email: _____

How did you learn about the Community Observatory?

Would you be able to commit to a minimum of two observing sessions (roughly 2 hours each) a month (weekdays as well as weekends) assisting in Public and Educational programs at the Observatory?

Please describe your experience in Astronomy: For example – are you active in any Astronomy clubs or associations? Do you own a telescope? Do you read, or subscribe to, any astronomically oriented magazines?

Please describe your experience in working with the Public:
